## pH

pH of loamy forest soils and precipitation, 401

Podzols and Spodosols, Fraser Lowland, Canada, U.S.A., 579

## pH-dependent charge

OH<sup>-</sup> ions and soil surfaces, 741

## Phosphate-solubilizing microorganisms

phosphate solubilizers in soil, 671

## Phosphorus

added P and leonardite on corn growth, 749

VAM spores and inoculation, 87

## Plant analysis

sulfur deficiency in rapeseed, 387

## Plant growth

plant growth in four oil sands overburdens, 353

## Pleistocene deposits

Podzols and Spodosols, Fraser Lowland, Canada, U.S.A., 579

## Podzol soil

copper on vegetables, 757

effect of foliar-applied selenium on crops, 455

origin of Fe in Podzolic soils on calcareous material, 691

## Podzolization

Podzols and Spodosols, Fraser Lowland, Canada, U.S.A., 579

## Polyster mounting

mounting peat soil monoliths, 753

## Potatoes

vegetables on limed and Cu-fertilized peat, 229

## Potential potassium supplying power

effect of K fertilizer and fall harvest on alfalfa yield, 211

## Power curve

desorption curves estimated from limited data, 697

## Prairie soil

surface mining and the microbiology of a prairie soil, 177

## Precipitation

pH of loamy forest soils and precipitation, 401

## Preplant and sidedress applications

response of corn to cattle manure, 377

## Protein

stubble barley on saline soil, 705

## Radionuclides

uptake of radionuclides by vegetation, 281

## Rainfall erosion indices

rainfall erosion indices, 271

Rapeseed (*Brassica* spp.)

sulfur deficiency in rapeseed, 387

## Reclamation

microbial activity in oil sand overburdens, 363

plant growth in four oil sands overburdens, 353

water repellency of lignite, 405

## Redistribution of water and salt

hydrophobic layers and salt distribution, 57

## Reed canarygrass

liming of peat for growing grass, 469

## Residue

atrazine residues in soils: impact on susceptible crops, 315

*Rhizobium meliloti*

alfalfa inoculation methods for acid soils, 541

## Richards' equation

infiltration and evaporation from soil columns, 303

## Ricky Mountain Region

origin of Fe in Podzolic soils on calcareous material, 691

## Ryegrass

effect of selenium-treated seed on selenium in forages, 641

## Salinity

salt tolerance of summerfallow barley, 327

stubble barley on saline soil, 705

## Salinity tolerance of barley

yield of irrigated barley and soil salinity, 519

## Salt movement

hydrophobic layers and salt distribution, 57

## Salt tolerance

salt tolerance of summerfallow barley, 327

## Sampling confidence

variability of Atterberg indices, 485

## Saturated paste EC

yield of irrigated barley and soil salinity, 519

## Seed treatment

effect of selenium-treated seed on selenium in forages, 641

## Selenium

effect of foliar-applied selenium on crops, 455

## Slender wheatgrass

microbial activity in oil sand overburdens, 363

plant growth in four oil sands overburdens, 353

- Volcanic ash  
origin of Fe in Podzolic soils on calcareous material, 691
- Water budgets  
infiltration and evaporation from soil columns, 303
- Water erosion  
soil erosion and deposition, 607
- Water flow  
construction impacts on peatland soils, 557
- Water repellency  
water repellency of lignite, 405
- Water retention  
water retention equations, 291
- Water table depth  
soil trafficability in spring, 15
- Weathering of  $\text{CaCO}_3$   
origin of Fe in Podzolic soils on calcareous material, 691
- Whatcom County  
Podzols and Spodosols, Fraser Lowland, Canada, U.S.A., 579
- Wind erosion  
soil erosion and deposition, 607
- Woodruff  
lime requirement determination for organic soils, 411
- Year-by-N interaction  
nitrogen applications on continuous corn, 547
- Yield  
effect of foliar-applied selenium on crops, 455  
salt tolerance of summerfallow barley, 327  
stubble barley on saline soil, 705
